Subject: NOV Response for Additional Information

Dear Ms. VanWormer,

Our responses to your request for the following additional information is attached.

"To resolve this violation, please provide the following information:

1. %TS used for the agronomic rate calculations performed prior to land application for each field used in 2018;
2. %TS used to calculate the actual agronomic rates for each field as submitted in Table 8 of the 2018 annual sludge report (ASR);
3. The total gallons that were land applied at each field used in 2018;
4. The total acreage beneficially used at each field in 2018;
5. The soil test results lab sheets for each field used in 2018;
6. All %TS results for Dovetail for the months of March, April, October, November, and December in 2018."

Please note that the chart below will cover request numbers 1- 4. Request number 6 is covered in the chart as well since we provided all %TS used to calculate the agronomic rates for each field as requested in number 2. We have also attached all soil test results for each field below the chart.

Thank you,
